

Teifi Boating Club Clwb Cychod Teifi  
Risk Assessment

Activity; Use of outside toilet. Assessors Name; A.W. Jones,

Location; The Patch, Gwbert on Sea, Cardigan . Assessment Date; May 2020

Hazard	Likelihood	Severity	Overall Risk	Control Measures
Covid 19, Corona Virus	1	4	4	<p>Covid 19 is not an air borne virus but exists in water particles. Transmitted between people through respiratory droplets and contact routes including touch points. The droplets have a mass that is heavier than air and therefore drop after being expelled from the person. The droplets can land on surfaces and will remain a living virus for up to 72 hours depending upon the surface they have landed on and the humidity of the environment that they are in. Contaminated droplets can be eradicated by using suitable surface cleaner, hand sanitiser and complying with Welsh government guide lines.</p> <p><b>Use of signage to be considered together with instruction document.</b></p>
Surface sterilising cleaner and hand sanitiser.	1	2	2	<p>Ensure that cleaning chemicals and hand sanitiser are suitable and do not introduce a hazard.</p> <p><b>Coshh data sheets to be obtained, assessed and retained.</b></p>
Use of toilet facility	1	4	4	<p>Modifications to the existing facilities will be required, this will include the temporary disconnection of the power supply to the air hand dryer. The purchase of a hand sanitiser dispenser, hand sanitiser gel, paper towel dispenser, paper towels and foot operated lid rising bin with plastic bin bag liner to dispose of hand towels and the purchase of a suitable surface cleaner.</p> <p>An instruction sheet on how to use should also be considered.</p> <p><b>Inform Members by signage</b></p>
Children using the facilities	1	4	4	<p>Children/ under 16's must be accompanied and under adult supervision at all times.</p>

Risk Assessment

Risk Rating		Rating action bands	
To establish residual risk rating multiply "likelihood by the severity"			
Likelihood	Severity	Risk Band	Additional action required
1, Most unlikely	1, Trivial injury	1 & 2, Minor Trivial risk	No further action required, Monitor situation
2, Unlikely	2, Slight Injury	3 to 5, Low risk	Monitor control measures for continued effectiveness
3, Likely	3, Serious, chronic injury	6 & 8, Medium risk	Improve or increase control measures
4, Most Likely	4, Major injury or death	9, 12 & 16 High risk	Stop the activity, improve and increase controls immediately
<b>Management confirmation</b>			
I have noted the above assessment and will take appropriate steps to ensure all actions raised and control measures are implemented

Risk Assessment

Suggested method of using the toilet facility

**Works to be carried out**

Hand sanitiser dispenser to be fitted to the outside of the toilet door.

Hand towel dispenser to be fitted to the wall inside the toilet area

Foot operated waste bin inside the toilet area

Small shelf to hold surface cleaning fluid fitted to wall above paper towel dispenser (out of reach of small children)

**Use of toilet**

Arrive at door, sanitise hands, open door and enter.

Close door, with surface cleaner spray, the flush leaver, toilet seat and taps then wipe with paper towel.

After use, flush toilet

Wash hands, dry hands, dispose of paper towel into waste bin.

With surface cleaner, spray the flush leaver, toilet seat and taps then wipe with paper towel.

Open door, exit.

Sanitise hands

Risk Assessment

Some will do this, some won't. The replenishing of consumables needs thinking about.
